You need to pay the tier one fee

Based on your answers, you are required to pay the data protection fee. You are in tier one, which means your fee will be **£52.**

On Monday 17 February the cost of the data protection fee increased following a government consultation on proposed changes. Further information including the new rates can be found at [Changes to the data protection fee.](#)

Water Lane Wilmslow, Cheshire SK9 5AF

How to pay

If you pay your fee annually by credit or debit card, cheque or BACS, please follow the instructions on our payment page.

You can also set up a direct debit with us. Organisations that pay by direct debit get a £5 discount on your fee.

If you have an existing direct debit and your tier hasn't changed, your registration will be automatically renewed so you don't need to take any action and you can [exit this self assessment.](#)
